About Roca

Focused on improving the bathroom experience since 1917

The aim to enhance people's quality of life is the driving force of a company that, over one hundred years after its establishment, continues improving its processes and researching new materials and technologies to offer bathroom experiences that meet the demands of 21st century users.

This experience and passion for our craft have forged a special relationship with professionals, who find at Roca the trust of a company renowned for its quality and customer service all around the world.

From Barcelona, connected to European design and without forgetting its roots, Roca works intensely to give back to society all that it has given to it. Proof of this are the development of more sustainable products, the industrial leadership in the reduction of emissions and the launch of initiatives such as the We Are Water Foundation, which leads projects that provide water and improve sanitation in some of the most disadvantaged areas of the planet.

With a present past, Roca continues its path towards the future. Tradition, expertise and passion for people to continue being at their side in their daily routines, throughout their lives.

As part of its policy of continuous product improvement, Roca reserves the right to modify, at any time and without prior notice, any of the models and items contained in this publication, and thus does not guarantee their availability nor that the specifications, colours, shapes or other features reproduced herein coincide at any given time with those actually available. The ambiances shown herein are purely decorative and their layout takes no account of any possible technical installation requirements. Any reproduction, in whole or in part, of the content of this publication is strictly prohibited without Roca's express authorisation.

In-Wash®

Technology

Simple operation

Simple and intuitive user interfaces that make it possible to understand its operation from the first use.

Remote control

Remote control and side panel to remotely control the cleaning and drying functions.

Easy installation

With a conventional power outlet, they can be easily installed in any renovation.

Thorough cleaning

Retractable integrated nozzle that takes water to the most intimate parts ensuring the maximum cleanliness.

Hygiene

Self-cleaning nozzle before and after each use and water filter that removes waste and impurities.

Easy cleaning

Removable nozzle tip making cleaning easier.

Safety

Infrared sensor that prevents the product from turning on if no presence is detected on the seat.

Customizable

The position of the nozzle, the water temperature and pressure and the drying temperature can be adjusted.

In-Wash® Inspira

Smart Toilets

Intimate hygiene

Front (anal) and rear (vaginal) cleaning with water.

Quick release

Easily removable seat and cover to make cleaning easier.

Soft close

Seat and cover close gently reducing noise.

Drying function

Gently dosed warm air for a pleasant drying after cleaning.

Night light

Programmable LED light to guide users at night.

Technology In-Tank

Without cistern

New WC concept that integrates the water tank into the bowl.

Easy installation

All-in-one solution that simplifies the installation process minimising maintenance work.

Space-saving

One piece design that takes up less space and allows greater freedom in the design of bathroom spaces.

Multiclean® Premium Soft and close-coupled WC Debba

Roca Vitreous china

Firmness

Outstanding static strength verified with load tests of up to 400 kilos.

Durability

Pieces with an incredible consistence and durability thanks to their exclusive mineral composition and a thorough control of the firing curve.

High resistance

The properties of the enamel guarantee the stability of the pieces against abrasive products, extreme temperatures or UV light.

Easy to clean

Innovative Rimless designs with even inner walls, with no angles or gaps where dirt can build up.

**Maximum hygiene**

Non-porous surface that prevents the absorption of water and therefore, the proliferation of humidity and bacteria.

Ever shining

Exclusive glaze that maintains the shine and performance throughout time.

**Material****Fineceramic®****Lightness**

Walls with a thickness of only 5 mm that shape 40% finer basins.

Firmness

Innovative formulation that results in 30% more resistant basins than conventional ceramic products.

Wcs

Water savings

Dual flush cisterns that use one half of their capacity to avoid the waste of water.

Technology

Roca Rimless

Easy cleaning

Inner walls without angles or nooks where dirt might build up, making the cleaning of the WC easier.

Hygiene

New water distributor that propels a stronger flush, homogeneously distributing water throughout the entire bowl.

Splash-free

Slight edge on the upper part of the bowl that prevents water from exceeding the limits of the piece, avoiding any splashing.

Material

Supralit®

Antibacterial

Material with zero porosity, exclusive at Roca, that prevents the absorption of liquids and the build-up of dampness and bacteria.

Easy cleaning

Innovative design with no angles or nooks where dirt might build up, making cleaning easier.

Resistance

Exclusive formulation, highly resistant to chemical agents and UV light.

Seats & Covers

Slim

Slim design

Thickness of only 2.5 cm in a modern design that increases the feeling of comfort and is fully hygienic.

Quick removal

Easily extractible seat and cover for enhanced cleaning, making it possible to reach every corner.

Soft close

Optional closing of the seat that allows it to fall softly, slowly and with no need to push it.

Compatibility

Its universal dimension allows an easy and practical installation in all kinds of WCs.

| Beyond basin, Insignia faucets, Luna mirror, Tempo accessories

Ona ^N

Simple as nature. Ona pays homage to the diverse shapes of nature from our native Mediterranean. It is functional without ever appearing cold, with crisp aesthetics that follow the inherent warmth of the natural environment, made for those who enjoy the power of silent landscapes.

Complete your bathroom with the furniture from The Gap collection, that has solutions with different measures and also a column module for extra storage.

Nexo

Pure shapes are left behind, while the trapezium and inverse angles full of subtle character are the winners in this easy to combine collection, regardless of the style or size of your bathroom space.

Roca furniture units

Quality

High-quality finishes and use of noble materials such as solid wood, marble or quartz.

Softness

Drawers with soft close system to ensure a soft and silent operation.

Resistance

High-quality rails and hinges that ensure 20,000 opening and closing cycles.

Design

Wide array of styles to respond to all kinds of aesthetic needs.

Adaptability

Large range of dimensions and typologies of bathroom furniture to easily adapt to all kinds of spaces.

Convenience

Full extraction drawers that open fully to facilitate the access to the inside of the furniture unit.

Capacity

Large drawers with no cut-outs for the trap that provide greater storage capacity.

Order

Drawers with internal dividers, hidden compartments and organizing boxes for a better distribution of contents.

Mirrors and lighting

Naturlight

The Iridia, Eidos and Prisma mirrors release neutral or natural light, providing a feeling of freshness and cleanliness. This is obtained through high-efficiency AC LED technology.

Compatibility

Large variety of designs compatible with several furniture proposals.

Efficiency

Spotlights and mirrors with LED lighting for a greater amount of light and less consumption.

Comfort

Models available with an antifog surface, adjusting or lower ambient light.

Convenience

Mirrors with Touchless technology to activate the light or the demister device with a movement sensor, without having to touch.

Design

Wide array of round, square or rectangular mirrors, with or without light, to respond to any aesthetic need.

Beyond

Innovative materials

The furniture units are compatible with basins in Fineceramic® or Surfex® depending on the model (vanity, in countertop or over countertop basins). Countertop in compact quartz.

Ample dimensions

Its largest model features an extraordinary length of 1600 mm with four spacious drawers and a depth of 500 mm.

Various possibilities

It allows the configuration with drawers or rather combining drawers with a side door.

Beyond furniture unit, Insignia faucet, Tempo accessories and Iridia mirror.

Mirrors

Roca's mirrors offer solutions adaptable to all type of spaces.

Mirrors LED: innovative elegance

The mirrors have integrated LED lighting, lower ambient light and demister foil system, operable by "touchless" sensors. They bring elegance of lines as well as technological innovation and energy saving.

Victoria accessories

Dual installation: adhesive and screws

The installation of adhesive is easy, durable and also avoids the use of the drill in only eight easy steps.

1 Clean the mounting surface with a 50% water and alcohol solution.

2 Tighten the "first" tube to break the inner capsule until the liquid soaks the cap.

3 Apply a thin layer of the "first" tube on the surface of the support and on the wall to increase the adherence and let it act for 5 minutes.

4 Stick the adhesive on the wall bracket.

5 Press the adhesive strongly for 30"

6 Assemble the support on the accessory and remove the adhesive protection. Do not touch with your fingers.

7 Place the accessory on the wall from the bottom, remove the item and press for 30".

8 After 72 hours, reassemble the item to the wall bracket.

The installation by drill is easy, simple and durable in just four easy steps.

Touchless products

Durability

High quality materials that guarantee maximum durability and high product maintenance over time.

Easy installation

Touchless solutions can be easily installed in our bathrooms to add an extra layer of safety for the benefit of the family's health.

Water saving

Wide variety of electronic and self-closing faucets that improve water use.

Touchless =Maximum hygiene

The flush activates without contact thanks to an integrated infrared sensor, avoiding the spreading of viruses and the growth of bacteria.

Public

Hand dryer with sensor.

**General technical data**

Wall-mounted hand dryer with sensor.
Bright finish.
Ref. A818021001
254,00 €

- | | | | |
|-----------------|-------------------------------------|---------------------|---|
| • Installation: | Wall-mounted | • Sensor range: | 18-19 cm (using Kodak white card)
11-12 cm (using Kodak grey card) |
| • Material: | Stainless steel

EM1

Electronic universal dual flush mechanism.

- 4/2L
- 4,5/3L
- 6/3L

**General technical data**

Electronic (touchless) dual flush mechanism. Integrated sensor that allows the activation of the full or partial flush depending on the hand movement. Powered by four 1.5 VLR6 (AA) alkaline batteries.
Ref. A822599900
105,00 €

- Transmission frequency: **Each 128 ms**
- Activation mode: **Moving hand - partial flush**
Still hand - full flush
- Water level: **182-224 mm**
- Flush speed: **2,5l/s**
- Activation: **Electronic or manual**
- Push-button dimension: **48 mm**
- Battery life: **40,000 flushes**

No electrical installation

It works on 4 AA batteries that guarantee more than 40,000 flushes.

It also works manually if the batteries run out.

TOUCHLESS

**Universal**

Compatibility (Ø40 mm) with a wide range of toilet cisterns.

Easy installation

Quick assembly and activation.

Hand still

- Low water consumption. Flow rate 3,7 l/min (3 bar).
- Adjustable flow rate.
- Adjustable temperature.
- Water resistant sensor and solenoid valve.
- Watertight electrical connectors.
- Automatic security closure after 60 sec.
- Automatic security closure in case of electric supply cut.
- Low electric consumption. Ultra low stand-by consumption after 30 minutes of non-use.

Electronic mixers Roca

The Electronic Mixers Roca has a state-of-the-art "intelligent system" based on automatic ignition/shutdown without contact. A presence detector of the hands opens and closes the tap instantly without wasting a single drop of water. Provides reliability, durability, and the very important energy and water savings.

| Electronic mixers Loft-E

Functionality and comfort

It has a state-of-the-art system that allows automatic activation / deactivation. Intuitive operation without contact that guarantees the ease of handling of the product.

Saving water and energy

An infrared presence detector opens and closes the mixer instantan by providing the necessary water in each use without a single drop being wasted. In addition, it incorporates an automatic closing that activates 60 seconds of being in continuous operation. The L90-E and M3-E series include an electrical consumption reduction system that goes into operation after half an hour without use (ECO mode).

Hygiene

The Roca Electronic's range is designed with pure and modern lines that prevent dirt from being deposited. Thanks to the use without contact, the user does not have to handle the mixer with what maximum hygiene benefits are guaranteed.

Easy installation

Installation of the electronic mixers Roca is the same as that of the standard single-mixer mixer. In addition, the power box can be placed by means of an adhesive tape included in the box or bolted to wall.

Power supply to a network or batteries

In order to meet the needs of public spaces, all Roca Electronic's series are available with a network connection or batteries so that the user chooses the most optimal option. For models with batteries, the mixer incorporates a light indicator that activates when the battery is low.

Hygiene

Especially designed for public spaces, its robust design ensures the durability of the product. In addition, the electronic mixers Roca incorporates hidden aerators to avoid vandalism and robbery.

Reliability

The electronic mixers Roca meets all the requirements of the European regulations EN-15091: 2006 and in addition the design and manufacturing process is certified with the norms ISO 9001: 2008 and ISO 14001: 2004.

| L20-E basin mixer

Self-closing mixers Roca

The Roca Self-closing mixer only requires a push to activate. Thanks to its automatic closing, the water flow ceases after a pre-established period of time. It is especially indicated for use in public or semi-public spaces, where its capacity to save water and energy multiplies.

Self-closing mixer Avant

Self-closing mixer Instant

Wide range

Roca expands its range of self-closings mixers with two new complete series: Instant and Avant that complement the current Sprint series. Instant and Sprint have visible and recessed mixers for washbasin, shower and urinal. Avant has taps for washbasin and urinal.

Functionality and comfort

Roca Self-closing mixer is designed specifically for an intuitive and user-friendly use. The three series offer different heights that adapt to all types of bathroom spaces. The Avant series stands out for its ultra-soft pulsation system making it even easier to use and offering greater comfort.

Saving water

Roca in its continuous commitment to respect for the environment has created the Instant and Avant taps with a limited flow preserving the comfort of use. In addition, in the Avant range, the water outlet time is predefined, guaranteeing the water needed for each use.

Versatility of use

The differential characteristics between the three series make each of them suitable for different spaces: common areas of hotels, offices, hospitals, schools, gyms, campsites, geriatrics, shopping centers, bars and restaurants.

Robustness

Instant, Sprint and Avant are specially designed for public spaces with a high influx of users guaranteeing their durability and resistance over time. Instant and Avant incorporate hidden aerators to prevent vandalism.

Easy installation

The installation of the Self-closing Roca mixer is the same as that of the usual single-lever mixer, without the need for additional tools.

Reliability

The Self-closing Roca mixer is certified with the ISO 9001: 2008 and ISO 14001: 2004 process and manufacturing standards.

Minimal and innovative technology that keeps improving its style to satisfy every interior need.

Easy maintenance

The operating plates can be easily removed from the wall, allowing an easy access to the inside of the cistern to perform any maintenance.

Easy installation

The installation is quick and simple. A complete installation pack with detailed instructions is included. You may find animated films at www.roca.com that will guide you through the different steps to be followed during installation.

For wall-hung WC

Duplo WC

6/3L

4,5/3L

4/2L

Novelty

Roca faucets

Evershine

Electrolytic coating that ensures a permanent shine over time and makes cleaning easier.

Low noise level

Sound reduction technology integrated in the cartridges and faucets to limit the noise of water.

Quality and Durability

Ceramic cartridge tested to withstand over one million opening and closing cycles.

Safe Touch®

The Safe Touch® technology prevents the faucet body from overheating to avoid burns when touching the material.

Security 38°®

Thermostatic faucets with safety device that prevents the temperature from exceeding 38°.

Quick Reaction®

The Quick Reaction® technology integrated in thermostatic faucets allows users to obtain the desired water temperature in no time.

Water savings

Flow control technology complying with the most demanding standards for saving water and energy, certified by the European Water Label.

Technology

Cold Start

Energy savings

Front cold water opening that forces users to turn the handle to the left to gradually obtain hot water.

Aesthetics

Restricted opening to the right, allowing the handle to be perfectly aligned with the spout, improving the aesthetic qualities.

Material

Everlux

Sophisticated finish

Exclusive and trendy coating that adds distinction and singularity to the bathroom space.

Sustainable

Purely physical technique that does not use harmful chemical elements in its production process.

Resistance

Ultrafine coat made of extremely hard metals that results in a surface that is extraordinarily resistant to scratches and cleaning products.

RocaBox

Built-in faucets

Roca presents RocaBox, the universal solution for all built-in installations. A solution that is easy to install, practical, compact and versatile, for any type of wall. At only 70 mm, it is the minimum installation depth for any universal box. Valid for thermostatic or single lever, shower or bath-shower faucets. RocaBox is the ideal solution for a built-in shower or bath-shower faucets.

RocaBox

System elements

Sound insulated elastomer: it absorbs all kind of noises and vibrations from pipes to guarantee a minimum sound level during the operation of **RocaBox**.

Universal box: Manufactured in one single polypropylene piece, a stable and inert material. It includes different positioning steps to place the fastening ring when installing it on light walls. The box has "cogs" that enable to mark the diameter of the **RocaBox** on the plasterboard.

Fastening ring: also manufactured in polypropylene, it is needed when installing the **RocaBox** on plasterboard. It is fixed in the universal box allowing a minimum depth of 70 mm and maximum depth of 95 mm.

Cleaning block: it allows to close and clean the hydraulic circuit before placing the valve. In the closed position, it withstands 16 bar and in the open position it allows the comfortable cleaning of the installation.

Brass universal body: máxima calidad high-quality brass, with excellent anticorrosive power, high hardness and resistance thanks to a special pressing.

Box lid: manufactured in polypropylene, it allows the protection of the inner part of **RocaBox** before installing the valve. Both protrusions on the lid help to level **RocaBox** correctly.

Digital Smart Shower

Remote control

Mobile app via Bluetooth® that enables users to programme the shower or remotely fill the bath at the desired temperature.

Intuitive use

Simple user interface that makes its operation very easy to understand.

Child protection

Blocking system that prevents the water temperature or flow from changing to protect the little ones.

Customized

User memory with different available profiles to enable each user to customize the shower and enjoy a custom-made experience.

Safety

Thermostatic technology that keeps the temperature and flow steady and constantly monitors the water temperature to avoid possible burns.

Easy disinfection

Cleaning programme that expels water jets at the maximum temperature to remove germs and bacteria from all pipes.

Saving of water and energy

Pause mode that keeps the temperature stable for a predetermined time to let users lather up without wasting water and energy.

Smart Shower

Installation system included

Thermostatic

Instant temperature

The integrated Quick Reaction technology allows water to flow at the desired temperature in no time, always keeping it steady.

Anti-scald

Roca's ceramic cartridge blocks the hot water flow if the cold water supply is discontinued, avoiding the risk of scalding.

Accuracy

Temperature control that allows users to quickly and precisely select the degrees with a simple gesture.

Scald protection

The Safe Touch technology prevents the body of the faucet from overheating, avoiding burns.

Safety at 38°

Safety device that prevents the temperature from exceeding 38°, providing safety and avoiding possible burns.

Saving of water and energy

Instant desired temperature, without having to spend time adjusting it and without wasting water and energy.

Range Broadway

This range of Spas, with finishes in elegant wood panels, offers a variety of shapes and sizes available to everyone.

Underwater wellness

Versatility is the hallmark of these Spas, which allow sessions to fill you with energy just by adjusting the Water Massage or enjoy a relaxing experience simply by connecting the Air Massage.

Pleasure to share

Suitable both for indoor and outdoor, the Spas are available in different shapes (round or rectangular), capacities (up to 5 people).

Surfex®

Baths

Sophisticated finish

Soft, pleasant and matt touch, a result of its composition based on minerals and resins.

Thermal insulation

Low-conductivity material that provides outstanding insulation, resulting in greater energy efficiency.

Sustainable

Composition based on organic and 100% recyclable materials.

Repairable

Solid material that can be easily repaired and recover its original look.

Sound insulation

High absorption capacity of sound waves that softens the impact of water, resulting in more silent baths.

| Beyond bath

Stonex®

Baths

Easy cleaning

Easy-to-maintain textured surface that can be easily cleaned with just a wet cloth.

Repairable

Highly malleable sanitary gel coat layer that can be easily repaired.

Antislip

Textured surface that ensures the highest levels of anti-slip performance, while offering a very natural sensation, pleasant to the touch.

Resistant

Outer gel coat layer that ensures great resistance to wear and tear, discoloration, chemical agents and UV light.

Cast iron

Baths

Firmness

High mechanical resistance to shocks that prevents the surface from being damaged or deformed by impacts.

Durability

Material of an outstanding elegance and resistance that ensures a long life cycle.

Thermal insulation

Low-conductivity material that provides outstanding insulation, resulting in greater energy efficiency.

Easy to clean

Smooth surface, easy to maintain, which can be disinfected with conventional cleaning products.

Sound insulation

High absorption capacity of sound waves that softens the impact of water, resulting in more silent baths.

Hydromassage systems

Tonic

**Invigorating water massage.
Electronic push button.**

The Tonic system consists of water hydromassage adjusted by means of a power regulating push button. This system has lateral adjustable jets to offer a continuous water massage.

Total

**Invigorating water massage and relaxing air massage.
Electronic digital panel.**

The Total system offers a water-air hydromassage controlled by the LCD digital panel, with different massage programmes, continuous or pulsating and an electronic Venturi function. There are lateral, back and feet jets, as well as air jets located in the base of the bath. All jets can be adjusted by means of the digital panel. It also has temperature and level sensors to ensure the best performance of the bath.

Hydromassage functions

Water massage

The water massage is carried out through jets that eject a water-air mixture that produces a toning effect on our bodies. The jets regulate their intensity by means of a manual or electronic Venturi function, depending on the system, so that we can control the water force choosing a softer or more invigorating effect.

Lateral massage: Adjustable jets located on the side of the bath.

Feet massage: Specific for feet.

Back massage: Specific for the back.

Customization

Some systems allow users to customize the massage session, creating programmes in accordance with the needs and wishes of every user, in a simple and quick manner.

Self-cleaning

Ozone in small amounts produces a cleansing effect in the entire hydromassage system, ensuring a clean process whenever we use it.

Air massage

This is a massage in the shape of bubbles that are ejected through small jets located in the base of the bath. It has a softer and more relaxing effect than the water massage. Its intensity can also be controlled through the different kinds of control.

We can find two different technologies: Air jets / Soft jets

Control panels

Electronic push button
Available in the TONIC version. Electronic push button to activate and deactivate the hydromassage. The Venturi function (intensity regulation) is carried out by turning the push button. The illuminated Roca logo indicates that the massage function is activated.

Digital panel
Available in the Total versions. Digital panel with LCD screen. Menu navigation with 3 buttons to activate, deactivate, change and adjust the different functions.

Types of jets

Lateral adjustable water jet
Ø 50 mm

Lateral jet that may be adjusted to change the direction of the water. In this way the massage adapts perfectly to the needs of each user.

Back rotating water jet ø
32 mm

The back jet has a rotating function that carries out a soft massage, suitable for the back area.

Feet jet ø 32 mm

The feet jet is made up of a microjet designed with the minimum dimensions to ensure a soft massage on the soles of the feet.

Air jet ø 27 mm

The air jets have a new design, they are now more oval-shaped and flatter. This allows greater comfort in the bath and an improvement in their cleaning.

Soft jet

The soft jets combine the effect of air and water to create champagne-like bubbles from the base of the bath.

Stonex®

Shower trays

Antislip

Textured surface that ensures the highest levels of anti-slip performance, while offering a very natural sensation, pleasant to the touch.

Cut-to-size

Easily adaptable to all kinds of spaces thanks to the cut-to-size option.

Extraslim

Slim design that allows its floor leveled installation to provide a perfect integration in the shower space.

Resistant

Outer gel coat layer that ensures great resistance to wear and tear, discoloration, chemical agents and UV light.

Easy cleaning

Easy-to-maintain textured surface that can be easily cleaned with just a wet cloth.

Repairable

Recubrimiento de gel coat sanitario de gran maleabilidad que permite una fácil reparación.

Shower trays / Stonex®

Extra-flat designs

These models are characterized by being extra-flat, being able to install at ground level or saving a minimum step with respect to the pavement of the room.

Inclination angle	Norm DIN 51097
From 6° to 12°	-
From 12° to 18°	A
From 18° to 24°	B
More than 24°	C

Maximum security

The textured finish gives the baths a pronounced anti-slip property.

Stonex® Shower trays

Made of Stonex®, they stand out for their greater resistance to wear and durability. Design, functionality, adaptability, resistance and comfort go hand in hand in these suggestive models.

Shower trays / Stonex®

Vitreous china

Shower trays

Easy to clean

Glazed surface with zero porosity that prevents the absorption of water and therefore, the build-up of dampness and bacteria.

Durability

Incredibly consistent pieces thanks to their exclusive mineral composition and a thorough control of the firing curve.

Resistant

Roca's exclusive glazing guarantees the resistance of the pieces to abrasive products, extreme temperatures or UV light.

Shine

Crystallised surface that keeps its shine, colours and performance over time.

In-Drain waste systems

They are the best solution to achieve a shower area fully integrated into the bathroom space.

Enjoy the comfort of a shower without barriers and forget the usual steps is possible if you install a work tray made with flat ceramic, combined with a drain for showers at ground level.

Very comfortable

In-Drain systems create fully accessible and functional shower areas.

Roca shower enclosures

Resistance

Resistance to corrosion verified with 200 hours of testing in a salt spray environment.

Easy cleaning

Practical door release system to make cleaning between glass panels easier.

Durability

Mechanical resistance verified with a guarantee of 20,000 opening and closing cycles.

Limescale protection

Exclusive treatment that repels water and prevents lime and dirt from building up on the glass.

Safety

Tempered glass that breaks into tiny fragments avoiding the risk of accidents.

Easy installation

Models with an installation system with high-quality adhesive, which simplifies the process and avoids the drilling of the wall.

Adaptability

Compensation system that allows the adjustment of the enclosure to the unevenness of the wall.

Reversible

All models of standard enclosures are reversible.

Brisa ^N

Absence of lower profile

Its clean design without lower profiles provides more transparency, facilitating the cleaning of the floor areas.

8 mm tempered glass

Its 8 mm thick tempered glass ensures greater firmness and resistance to shocks.

Door release system

It features a mechanism that releases the doors from the lower fastening to make cleaning easier.

Soft close (opening and close)

This new feature allows open and close the sliding door with soft movement, avoiding bumps.

Reversible

The doors may be installed either for left or right opening.
